## Searching for Catherine the Caterpillar

When “Mrs. Melmadear” visits area elementary schools to talk about insects, students are in for a treat. Local author, Lisa Christiano Notar, dresses up in costume as “Mrs. Melmadear,” to present her story about Sara the Snail and her insect pals in her **search to find her best friend Catherine the Caterpillar** in the Melmadear’s garden. The book’s vibrant illustrations, onomatopaeia snap words, hyperbole, and rhyme keeps Lisa’s young audiences, Kindergarten through 2<sup>nd</sup> grade, focused as she projects the book on a whiteboard while the characters tell the story via the audio book. “Mrs. Melmadear” brings a different dimension to her presentation with interactive character songs. Lisa distributes musical instruments for each child to play as they sing along. She concludes with a question and answer game format and free coloring book pages for every student. Visit her [website](#) to learn more.

\$1,000.00 includes 4-6, 45 min. presentations and a free book for every student within one grade level. Contact Lisa to schedule your school’s author visit:
