WE CAN HELP...

Questions about sex and sexuality are often embarrassing and scary

Many teens receive their information from friends

Friends don't always give the facts correctly even though they are trying to help

Parents can sometimes be difficult to ask

As a result, teen health issues educators provide confidential one-to-one and small group education and counseling to teens in Oswego County.

DID YOU KNOW? Minors can receive reproductive healthcare including pregnancy testing, STD testing and treatment and birth control without parental consent?
