

# The SP TLIGHT

## Buildings May Be Closed, But School is Not!

Students from our APW Elementary site were sent seed packets so they could grow plants at home as part of their science curriculum. We are so proud of our students for their hard work despite every obstacle, and so proud of our staff for their creativity in teaching. Buildings may be closed, but school is not!

## Alumni Feature

CiTi alumna Hailie Fullmer is a Fulton High School 2018 graduate from the Cosmetology program. She currently works in Syracuse at The Salon by CNY Facecandy. During her time in the Cosmetology program, she had great success, which earned her an internship, which propelled her into her current position. Fullmer said the cosmetology instructors helped her step out of her comfort zone and shaped her into who she is today. Do you know CiTi alumni who should be recognized for their success? Share their story with the CiTi Public Relations team at [pr@CiTiboces.org](mailto:pr@CiTiboces.org).

New Vision Celebrates College Decision Day

ARE YOU LOOKING FOR AN EASIER WAY TO TRACK STUDENT CREDENTIALS?

CDOS ONLINE is a cloud-based credential management tool that helps track the progress of a student through the "4+CDOS" pathway. CDOS Online supports tracking of:

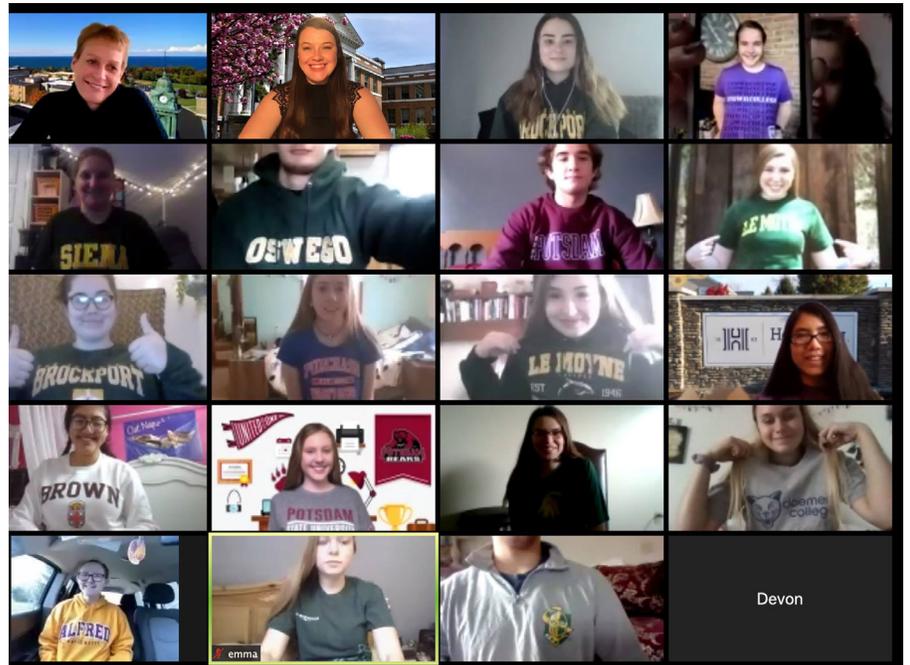

- CDOS Learning Standards (including Career Majors)
  - SACC
  - Employability Profiles
  - Employability Rubrics
    - Career Plan
  - Work-Based Learning Hours
    - CTE Coursework Hours
  - Industry-based Assessment Hours
    - File Attachments

## Community Comes Together to Feed Students

*CiTi staff help coordinate a food donation. We'd like to thank Upstate Farms and the American Dairy Association for donating 1440 five-pound containers of yogurt to Oswego County recently. The yogurt was distributed to local school districts and Catholic Charities.*

## P-Tech Hosts Virtual Open House

*Eighth-graders and their parents/guardians throughout Oswego County participate in a virtual P-TECH Open House via Zoom to learn more about the details of the program and local industry partners.*

## Virtual Meetings Help Keep Industry Pros, CTE Students Connected

Students from several CiTi Career and Technical Education programs have stayed connected with trade schools and industry professionals virtually.

Rusty Stetzel, a branch manager for Penn Power Group, came up with the idea to help students stay connected with the workforce and trade schools before forming a task force that included CiTi administrators, teachers and staff.

“These calls are to help us stay in contact and continue to engage the future workforce with potential employers during this time,” Stetzel said during one of the initial calls, noting his company “is always looking for students coming from area BOCES.”

Those on the calls to help answer student questions and speak about various facets of their work included professionals from the fields of heavy equipment, trucking, manufacturing, trade schools and more.

“We are incredibly thankful for the years and years of experience that was able to join the calls for our students,” said CiTi CTE Business Education Liaison Garrette Weiss. “They gained valuable insight about the fields they’re interested in, the next steps and what a career in that field looks like.”

There were multiple calls per week as the effort included virtual calls via Zoom with CiTi, Cayuga-Onondaga BOCES and Rochester-area students.

Some senior students who are graduating in June also utilized this as an opportunity to network, gaining some contacts in their various fields to help with next steps.

## Career and Technical Education Programs of the Month: Early Childhood Education and Outdoor Power Equipment Technology

**PROGRAMS  
OF THE MONTH**

*The month of May featured Outdoor Power Equipment Technology and Early Childhood Education as the Career and Technical Education programs of the month! Featured above are Altmar-Parish-Williamstown Central School District students. Students in the Outdoor Power Equipment Technology program will learn basic repair and maintenance on equipment that is typically used outdoors. Early Childhood Education students will explore career pathways and develop the characteristics of successful teachers and childcare providers through practicums.*
