P-TECH Application and Enrollment Checklist

Please complete this checklist for TVedWagyhWā_ bMW S^mSdeaXZMSbbUSfla`.

Oswego County P-TECH

The entire application should be completed no later than **U 7 02**

The Oswego County P-TECH 9-14 program is an early college and career regional high school spanning grades 9 through 14, which provides the equivalent of high school coursework and two years of college credit.

Students receive a seamless experience combining high school, college, and career training to graduate with a high school Regents diploma, an Associate degree from SUNY OCC, and relevant industry certification. The program sequence takes up to six years and includes pathway courses in Mechanical Technology or Electrical Technology, tuition-free college classes, and workplace learning experiences through industry partners. Students graduating from the Oswego County P-TECH program are prepared to go into the workforce or continue their postsecondary education with transferable credits in the SUNY system.

P-TECH Application and Enrollment Checklist
