

Joining Zoom on a Chromebook

From: <https://blog.zoom.us/how-to-use-zoom-on-a-chromebook/>

If you click a link to join a Zoom session, you will be brought directly to Step 3.

1. Push the Search button on your keyboard and the search bar will appear. You can type Zoom in the search bar. Click on the Zoom icon.

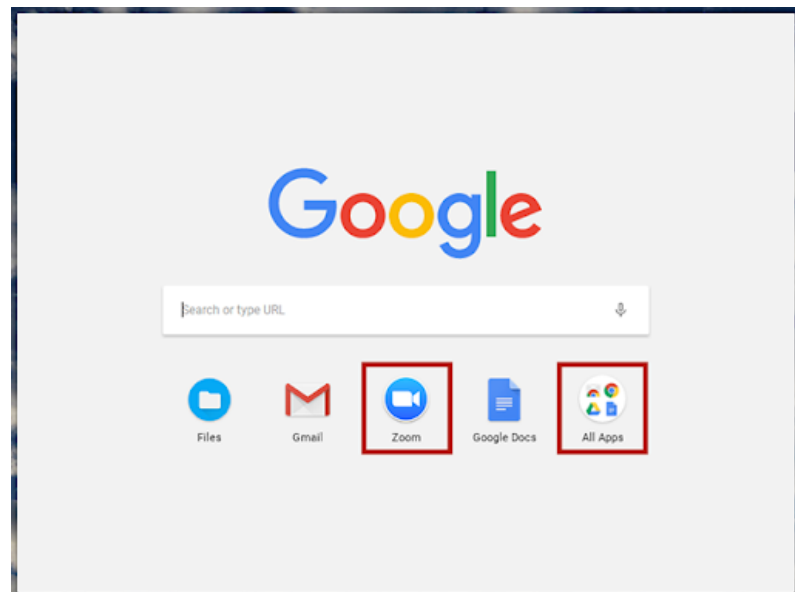

OR

Go to the app launcher on the Chromebook, by clicking on the circle in the lower-left hand corner, and click on the Zoom icon.

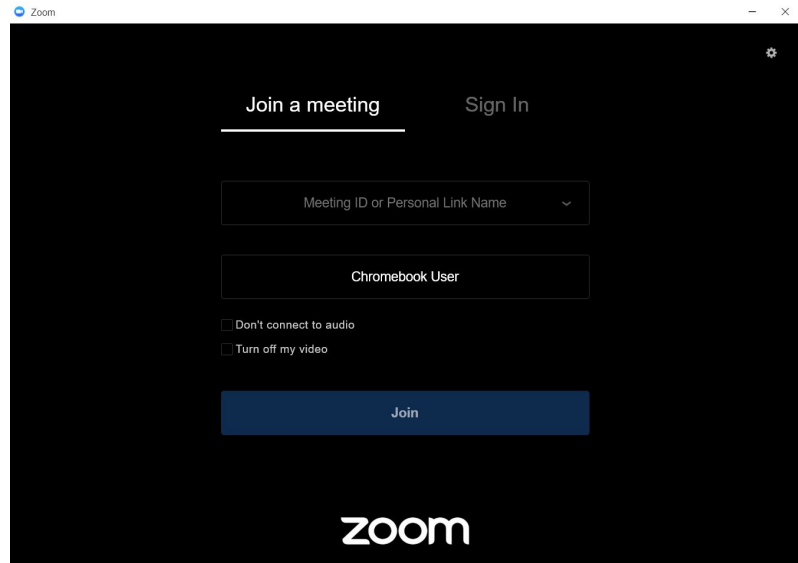

If you do not see the Zoom icon, type “Zoom” in the search bar, then click the icon when it shows up.

2. Make sure to click the option for “Join a meeting”.

Type the meeting ID in the box and click the Join button.

When prompted, type the Password into the box and click Join.

3. You should see a video preview screen. You will have an option to join with or without video.

Make sure to allow both audio and video if you receive pop-ups requesting access.

Once you're connected, you'll be able to immediately begin participating in your Zoom session.

Zoom functionality on a Chromebook

Zoom for Chromebook offers much functionality. You can:

1. Start or stop your audio
2. Start or stop your video
3. Use the in-meeting chat
4. Screen your share
5. Switch between Gallery and Speaker View
